

## 1C COMPANY

Founded in 1991 1C Company specializes in development, distribution, publishing and support of mass-market software.

1C has the biggest software sales in CIS IT industry. More than 650 employees make more than \$200 000 per employee per year sales.

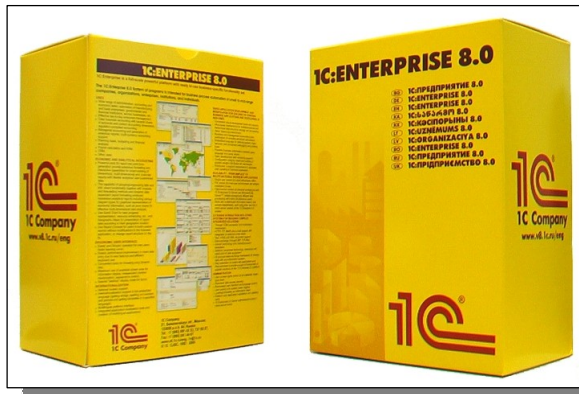

At present 5200 dealers from 570 cities cooperate with 1C. About 3200 teams constitute the 1C:Franchising partner network, which is a main channel of value-adding for 1C products. Service-partners provide regular information and technological support for 1C software customers. The network of authorized training centers is also operating. There are 280 1C:Multimedia software retail shops of the franchising chain, specialized in sales of home products.

1C is the official distributor of such world-famous vendors as Microsoft, Novell, Borland, Symantec, ABBYY, Kaspersky Lab, ProMT, Eset Software and over 100 other software vendors. 1C offers more than 10000 titles of software for office and home use.

## 1C BUSINESS SOFTWARE DEVELOPMENT, SUPPORT AND DISTRIBUTION

Among the software produced by 1C the most important is 1C:Enterprise system of business automation products. Being famous with their flexibility, built with modern technologies, scalable with single-user, file-server and client-server solutions, these products are used together or separately in SOHO to medium companies with one or several locations.

1C:Enterprise version 8.0 was launched in summer 2003 and it is underlain a powerful technological platform, whose features allow 1C, its franchise partners, independent developers and system integrators as well as the clients themselves to create the most diverse business applications. Over 900 software products produced by 350 companies earned '1C:Compatible!' logo.

One of 1C:Enterprise system products – 1C:Accounting – is the most successful accounting computer software in the CIS and it has become an industrial standard in business accounting automation. More than 800 000

companies as official users of 1C:Accounting regularly (quarterly, etc.) receive from 1C and its partners updates following the legislation changes.

Other well-known products of 1C:Enterprise system are: 1C:Trade Management, 1C:Payroll&HR. For home accounting we provide 1C:Money, with the annual tax declaration function. Since 2004 1C offers Manufacturing Enterprise Management integrated solution of ERP-class.

Support, methodological and training materials on accounting are an important part of our business.

1C provides advanced services for official users of 1C:Enterprise – the information and technological support (ITS). The purpose of this service is to provide users with a complete set of 1C software updates, accounting methodologies, office automation technologies, tutorials and new components for 1C:Enterprise system, consultations from chartered accountants, up-to-date legislation on taxation and business regulations

and more. Monthly 1C publishes a set of 1C:ITS CD-ROMs with up-to-date information. Our service-partners deliver this disk set to users, install databases and components, make maintenance of the systems, also providing other services. Internet support is also offered.

We are developing a range of products for e-mail, docflow and e-commerce. 1C has several co-projects with Intel, Microsoft, Novell, Borland, Symantec, Eset Software and others.

## 1C EDUCATION AND ENTERTAINMENT SOFTWARE
